JOURNAL OF IMMUNOLOGICAL METHODS

Contents to volume 170 (1994)

Number 1 – 29 March 1994

Immunological standardization

International collaborative study of the candidate international standards for human tumour necrosis factors alpha (hTNF-α) and beta (hTNF-β) and for murine tumour necrosis factor alpha (mTNF-α)
A. Meager and R.E. Gaines Das (UK) 1

Research reports

In vitro primary responses of human T cells to soluble protein antigens
M. Plebanski and S.S. Burtles (UK) 15

Clinical application of responder cell frequency estimates with four years of follow up
A.R. Hayward, G.O. Zerbe and M.J. Levin (USA) 27

Solid-phase antigen density and avidity of antibodies detected in anti-group B streptococcal type III IgG enzyme immunoassays
R.G. Feldman, M.E. Hamel, M.A. Breukels, N.F. Concepcion and B.F. Anthony (Netherlands, USA) 37

A fast and sensitive colorimetric assay for IL-6 in hepatoma cells based on the production of a secreted form of alkaline phosphatase (SEAP)
B. Gregory, R. Savino and G. Ciliberto (Italy) 47

Tracking of murine spleen cells in vivo: detection of PKH26-labeled cells in the pancreas of non-obese diabetic (NOD) mice
A.J. Beavis and K.J. Pennline (USA) 57

Preservation of protein phosphoryl groups in immunoprecipitation assays
A.G. Papavassiliou (Germany) 67

Flow cytometric analysis of the stability of antibody production by human × human × mouse heterohybridoma subclones
M. Ohlin and C.A.K. Borrebaeck (Sweden) 75

Quantitation of platelet derived growth factor receptors on cells from human arterial segments
C. Hicks, M.J. Sleigh and C.N. Chesterman (Australia) 83

Clinical evaluation of a modified ELISA, using photobiotinylated DNA, for the detection of anti-DNA antibodies
M.N. Hylkema, H. Huygen, C. Kramers, Th.J. V.d. Wal, J. De Jong, M.C.J. Van Bruggen, A.J.G. Swaak, J.H.M. Berden and R.J.T. Smeenk (Netherlands) 93

Spectroscopic evidence that monoclonal antibodies recognize the dominant conformation of medium-sized synthetic peptides
E. Lang, G.I. Szendrei, V.M.-Y. Lee and L. Otvos, Jr. (USA) 103

A new flow cytometric assay for the evaluation of phagocytosis and the oxidative burst in whole blood
S. Perticarari, G. Presani and E. Banfi (Italy) 117

Monoclonal antibody based enzyme-linked and chemiluminescent assays for the human interleukin-1 receptor antagonist. Application to measure hIL-1ra levels in monocyte cultures and synovial fluids
H. Towbin, A. Schmitz, J. Van Oostrum, M. Seitz, B. Dewald, O. Zingel, J. Motz, K. Vosbeck and C. Rordorf (Switzerland) 125

Book reviews 137

Announcement 141

Notes to authors 143

Number 2 – 15 April 1994

Research reports

A rapid method for measuring apoptosis and dual-color immunofluorescence by single laser flow cytometry
I. Schmid, C.H. Uittenbogaart, B. Keld and J.V. Giorgi (USA) 145

An adhesion assay using minimal shear force to remove nonadherent cells
J.J. St. John, D.J. Schroen and H.T. Cheung (USA) 159

Measurement of the dissociation rate constant of antigen/antibody complexes in solution by enzyme-linked immunosorbent assay
M.-P. Larvor, L. Djavadi-Ohaniance, B. Nall and M.E. Goldberg (France, USA) 167

A rapid and sensitive chemiluminescence dot-immunobinding assay for screening hybridoma supernatants
L. Bakkali, R. Guillou, M. Gonzague and C. Crucière (France) 177

Modulation of systemic cytokine levels by implantation of alginate encapsulated cells
H.F.J. Savelkoul, R. Van Ommen, A.C.T.M. Vossen, E.G. Breedland, R.L. Coffman and A. Van Oudenaren (Netherlands, USA) 185

Binding units (BU) and the area under binding isotherms (AUI). New indices of effector-target conjugation
J. Galvez, L. Cabrera, F. Lajarin and P. Garcia-Peñarrubia (Spain) 197

A new rapid and simple non-radioactive assay to monitor and determine the proliferation of lymphocytes: an alternative to [^{3}H]thymidine incorporation assay
S. Ansar Ahmed, R.M. Gogal, Jr. and J.E. Walsh (USA) 211

Liposome immunoassay (LIA) for gentamicin using phospholipase C
C.-K. Kim and K.-M. Park (South Korea) 225

Characterization of monoclonal antibodies specific for monocytes, macrophages and granulocytes from porcine peripheral blood and mucosal tissues
K. Haverson, M. Bailey, V.R. Higgins, P.W. Bland and C.R. Stokes (UK) 233

Distinction of highly homologous pregnancy-specific glycoprotein (PSG) isoforms by differential absorption of antisera with recombinant PSG fusion protein domains
P. Tschentscher, C. Wagener and M. Neumaier (Germany) 247

Efficient transfer of antibodies into mammalian cells by electroporation
J. Lukas, J. Bartek and M. Strauss (Denmark, Germany) 255

Production and characterization of monoclonal antibodies specific for the murine T cell receptor ζ chain
N.S.C. Van Oers, S.-J. Teh, B.A. Irving, J. Tiong, A. Weiss and H.-S. Teh (USA, Canada) 261

Letter to the editors

Evaluation of the MTT and SRB assays for testing LAK cell-mediated growth inhibition of various adherent and non-adherent tumor target cells
F. Garbin, K. Eckert and H.R. Maurer (Germany) 269

Announcement 273

Contents to volume 170 (1994) 275

Notes to authors 277
